MOHD AFTAB SHAIKH

Systems Support Engineer | Mumbai, India
shaikhaftab8050@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Systems Support Engineer with 1+ year of hands-on experience supporting Linux-based on-prem and cloud applications within enterprise environments. Strong ownership of SLA and KPI-driven incident and problem management with a consistent focus on MTTR reduction and service reliability. Adept at automation, monitoring, scripting, and log analysis while delivering high-quality enterprise customer support.

SKILLS

Core Skills: Linux Administration, Application Support, Incident & Problem Management, SLA & KPI Management, On-Prem & Cloud Applications, Monitoring & Alerting, Automation, SQL, Python, Shell Scripting, Configuration Management, Enterprise Customer Support, System Troubleshooting, Log Analysis, ServiceNow, Active Directory, Office 365, VPN Support, Patch Management

Soft Skills: Analytical Thinking, Problem Solving, Collaboration, Communication, Adaptability, Time Management, Attention to Detail, Accountability, Continuous Learning

EXPERIENCE

IT Executive — Course5 Intelligence Ltd., Mumbai
Mar 2025 – Present

- Provide 24x5 application and system support across Linux-based enterprise environments.
- Own incidents, service requests, and problem records with strict adherence to SLA and KPI targets.
- Perform advanced Linux and application troubleshooting using system logs, metrics, and monitoring tools.
- Coordinate with engineering teams and external vendors to perform root cause analysis and permanent remediation.
- Continuously monitor systems and alerts to proactively reduce MTTR and improve platform availability.
- Design and implement Python and shell automation scripts to optimize support workflows and reduce manual effort.
- Deliver consistent, high-quality enterprise customer support through clear communication and timely resolution.

PROJECTS

- **System Automation & Monitoring Scripts:** Developed Python and shell scripts for system health checks, log analysis, alerting, and proactive issue detection, significantly reducing manual intervention.
- **Windows System Optimization Script (Batch Automation):** Built batch automation for system optimization, registry tuning, telemetry control, privilege validation, and structured logging.

EDUCATION

Bachelor of Engineering – Electronics and Communication Engineering
Secab Institute of Engineering and Technology, Karnataka | 2019 – 2024

Higher Secondary Education (HSC)
Secab PU College for Boys, Vijayapura | May 2016 – May 2019

KEY ACHIEVEMENTS

- Client Champion Award

CERTIFICATIONS

- ISC2 Certified in Cybersecurity (CC)
- CompTIA Security+ — In Progress
- Python Programming — Udemy
