· Python
· Go
· Docker
· Kubernetes
· PostgreSQL
· Redis
· AWS
· Terraform
· Prometheus
· Git

EDUCATION

B.S. in Computer Science
University of Texas at Austin
2018 - 2022
CGPA: 3.85 / 4.0

Senior Cloud Infrastructure Engineer

SUMMARY

Cloud engineer with 4+ years of experience automating distributed systems and resilient microservices. Proven expertise in container orchestration and declarative infrastructure.

WORK EXPERIENCE

Site Reliability Engineer | CloudScale Inc 2022 - Present

? Architected multi-region Kubernetes clusters supporting 250M daily active requests with 99.99% uptime.
? Implemented Terraform modules cutting infrastructure provisioning cycle from 3 days to 15 minutes.
? Configured Prometheus monitoring dashboards reducing mean time to detection (MTTD) by 40%.

PROJECTS

Distributed Log Aggregator | Go, Docker, Redis 2023 - 2024

? Packaged containerized services with minimal alpine Docker images under 15MB.
