ALFIYA SHAIKH

+91-8080713022 | alfiya43shaikh@gmail.com | alfiya3022 · GitHub | alfiya-shaikh-0a1873280/

PROFILE

Detail-oriented Data Analyst with hands-on experience in Python, SQL, Excel, and Power BI, building end-to-end data pipelines and interactive dashboards. Strong foundation in data cleaning, exploratory analysis, and transforming raw datasets into actionable business insights.

EDUCATION

BE. Electronics & Telecommunication Engineering 2022 – 2026
Vidyavardhini's College of Engineering – 8 CGPA
Mumbai,India.

SKILLS

Programming & Databases: Python (Pandas, NumPy), SQL (Joins, Subqueries, Window Functions), MS SQL Server
Data Visualization & BI: Power BI (DAX basics, KPI dashboards, Drill-through), Excel (Pivot Tables, XLOOKUP), Matplotlib, Seaborn
Data Concepts: Data Cleaning, Data Profiling, EDA, REST APIs, JSON, Basic Statistical Analysis
Tools: Git, GitHub, Postman (API Testing), VS Code, Google Colab, Jupyter Notebook
Tools and Concepts : Git, GitHub, Linux (Basics**),** SDLC, Debugging, Documentation, Agile (Basic understanding
Additional Exposure: Deep Learning (CNN, ConvLSTM), Image Processing, Agile (Basic), Debugging & Documentation

PROJECTS

Human Perception-Based Deep Learning Model for Multi-Exposure Image Fusion - [Final Year Project]
(*Python — CNN (VGG16) — ConvLSTM — Deep Learning)*

- Designed a deep learning–based image fusion system using VGG16 for feature extraction and ConvLSTM for exposure sequence modeling.
- Performed data cleaning, preprocessing, and data augmentation to improve model robustness and generalization.
- Evaluated fusion quality through visual and analytical comparison

End-to-End Data Analytics Dashboard
(Postman, REST APIs, JSON, Git, Power BI)

- Built an end-to-end analytics pipeline from MSSQL Server to Power BI Service with interactive dashboards.
- Designed data models and visuals (slicers, KPI cards, drill-through) after data profiling and validation.

UPI Transactions Analysis Dashboard
(Power BI — Excel — Data Cleaning)

- Cleaned and transformed transactional datasets using Power Query and Excel to improve reporting accuracy.
- Developed an interactive dashboard analyzing transaction volume, value trends, and year-over-year growth.
- Identified digital payment adoption patterns through KPI tracking and trend visualization.

EXPERIENCE

First Home Fintech Solutions (Jan 2026 – Mar 2026)- Remote (UAE)
Design & Development Intern January 2026- Present

- Contributed to frontend components and UI fixes for customer-facing web pages.
- Assisted in documenting workflows and preparing technical notes for handover.
- Worked in an agile environment with regular feedback cycles.

CERTIFICATIONS AND ACHIEVEMENTS

- Complete Data Analyst Bootcamp — Udemy
- Semi-Finalist — VCET Face-off 2023 and Runner-Up — Oscillations Paper Presentation
