Alfiya Shaikh

Full-Stack Developer | Python | React | FastAPI | SQL

SUMMARY

Full-stack developer with hands-on experience building and deploying production web applications using React, TypeScript, FastAPI, and PostgreSQL, with exposure to Docker, Nginx, and AI integration.

EDUCATION

B.E. Electronics & Telecommunication Engineering 2022–2026
Vidyavardhini's College of Engineering
CGPA: 8.11

SKILLS

Programming: Python, JavaScript, TypeScript, SQL
Frontend: React, Vite, HTML, CSS, Tailwind CSS, Responsive UI
Backend: FastAPI, REST APIs, Pydantic, SQLAlchemy, API Validation, Authentication, JWT
Databases: PostgreSQL, Relational Data Modeling, SQL Queries, Database Migrations, Alembic
AI & Machine Learning: Ollama, PyTorch, TensorFlow, Deep Learning, Image Fusion
DevOps & Deployment: Docker, Docker Compose, Nginx, Linux, HTTPS, Environment-Based Configuration, Production Troubleshooting
Testing & Quality: Pytest, Playwright, API Testing, Functional Testing, Debugging, Root Cause Analysis
Tools: Git, GitHub, Postman, VS Code, Linux Terminal

EXPERIENCE

Freelance Software Developer (Project-Based) Jun 2026–Present
First Home Fintech Solutions (Remote)

- Maintain a live fintech website, troubleshoot production issues, and verify application fixes and deployments.
- Manage website maintenance and administration using Docker, Nginx, and production health checks.

PROJECTS

First Home Fintech Solutions — Full-Stack Web Application [Live] 2026 - Present
React, TypeScript, FastAPI, PostgreSQL, Docker, Nginx

- Developed and deployed a responsive fintech website with REST APIs, database-backed lead management, authentication, and admin functionality.
- Configured Docker-based production deployment and Nginx; implemented encrypted database backups and verified recovery in an isolated environment.

Private Resume — AI-Powered Resume Application Oct 2026
React, FastAPI, PostgreSQL, SQLAlchemy, Ollama

- Built a full-stack resume application integrating a React frontend, FastAPI backend, PostgreSQL persistence, and local AI through Ollama.
- Worked on JWT authentication, protected workflows, resume uploads, and LaTeX-based resume generation.

Deep Learning-Based Image Fusion 2025 - 2026
Python, PyTorch, TensorFlow, Deep Learning

- Worked on a deep-learning image-fusion project using PyTorch and TensorFlow, experimenting with image data and model-training workflows.
- Processed a dataset of approximately 500 images for training and experimentation.

CERTIFICATIONS & ACHIEVEMENTS

- The Complete SQL Bootcamp — Udemy
- Research Paper Author and Patent Contributor — Information Fusion (Ongoing)
- Semi-Finalist — VCET Face-Off 2023
- Runner-Up — Oscillations Technical Paper Presentation
